

A white Paul Davis van is parked in front of a modern building with a large "EMERGENCY" sign in red neon. To the right of the van, a large, tan-colored containment tent is set up under the building's overhang, with orange traffic barrels in front of it.

EMERGENCY

CONTAINMENT SERVICES

As a part of our continued fight against COVID-19, Paul Davis is working to limit exposures, both preemptively, and post contamination. Providing a range of protective barriers & containment solutions, Paul Davis is able to protect your employees & the general public. These protective builds include, but are not limited to:

- Plexiglass Protective Barriers
- Temporary Structures
- Air Control Systems
- Disinfection Services
- Sam 400 Air Treatment

Whether it is a large inner city Hospital or a local grocery store, Paul Davis Restoration is here to help in any capacity needed. From carpenters to painters - we have staff fit tested and trained to stay safe and help others. Because what we do isn't about property. It's about people.
